WILLIAM FOXW. A. WHITNEY IS CALLED ON BY
R. S. LOVETT TO HELP CLEAR UP
COAL SITUATION IN WEST

W. A. Whitney, general manager of the Ogden, Logan & Idaho railway, has been asked by R. S. Lovett, head of the priority board, to act in an advisory capacity to relieve the coal shortage in the intermountain country. A telegram has been received by Mr. Whitney requesting that he suggest means whereby the movement of coal might be improved.

In response to this request, Mr. Whitney has recommended that the transportation of coal be given priority rights over all other freight except perishable goods and stock. He advised that this was the most practical solution of the problem he could recommend, after conferring with railroad officials and mining companies, both here and in Salt Lake.

Mr. Whitney stated that Mr. Lovett asked him to act, not as a railroad man, but as an unbiased citizen who was in touch with the needs of the people through his experience as a railroad manager.

So far as he could ascertain, Mr. Whitney said, the lack of coal in Ogden and other cities in this region was due to the fact that all available cars are now being used for shipments of farm products. With the apple crop and the potato crop coming all at once and just at the time when the coming of cold weather demanded coal shipments, there were no cars. The situation has come up so suddenly that the railroads and coal interests were unprepared.

"The best solution of the difficulty, for all time to come," he said, "is for the farmers to make provision to store their potatoes. It is an easy matter to keep them and they can then be

shipped to the markets when there is not such a demand for cars. As it is now, as soon as the potatoes are taken out of the ground, they must be sent to the market because there is no place to store them. As a result, all the cars available for other uses must be hurried to handle these shipments or the potato output is a loss.

"Much the same condition exists with the apple crop. Throughout the entire middle west, this season has brought the biggest apple crop that has been seen for years. The labor shortage forced the farmers to leave picking their apples just as long as they could. Then came a sudden frost, causing them to turn their immediate attention to the apples. The cry went out for cars to save the apples and the cars, probably destined to haul coal, were rushed to the apple districts.

"Around the Montrose apple district, in Colorado, I found exactly the same conditions existing, with the same cry for cars. It always has been the practice of the farmers to hold onto their crops until they could get the highest market price. Now everything is being unloaded on the market at once, making the railroads hard put to it to handle the immense shipments. Considering these facts, it is but natural to have a coal shortage.

"However, steps will be taken to relieve the present coal shortage, as soon as plans have been formulated from the recommendations asked for by the central committee, of which Judge Lovett is chairman, and a working scheme will be adopted whereby there will be enough coal shipped from the mines to supply the needs of this winter."

OPIUM SMOKERS
IN MUNICIPAL COURT

Joe Ling, John Doe Leo and Leo Yet, three Chinamen, were each fined \$25 by Judge Barker in municipal court this morning for having opium in their possession. Joe Ling is an old man and has been addicted to the opium habit and the officers stated he could not live without the drug.

The fine was imposed, Judge Barker

stated, as a warning to the younger men to keep away from Ling and his drug.

The case against Will Houten, charged with trespass on railroad property was dismissed this morning, when the railroad officials failed to appear as complainants in the case. Houten pleaded not guilty. The judge stated that if the officers making the complaint did not show interest enough in the case to appear in court, he would dismiss them.

Chas. McCutcheon and Arthur Bern-

OGDEN MAKES A GOOD
SHOWING IN LIBERTY
LOAN DRIVE

With an approximate total of \$2,900,000, Ogden and the northern district of five counties finished the grand drive of the second Liberty loan campaign. This figure is about \$400,000 short of the maximum allotment for the northern district, but officials of the loan organization consider it a huge success. A letter to the local headquarters from the Twelfth Federal Reserve bank at San Francisco today announced that the maximum and minimum allotments might be reduced as a result of the subscriptions of Hawaii and Alaska, which were not counted and have now been added. If this is true the northern district will probably come well within its maximum allotment.

Ogden's grand total of \$2,019,950 is virtually correct. Some reports from outlying districts of the various counties indicate that the northern district total may be slightly increased, but it will not exceed the \$2,900,000 mark, loan officials say. The total for city and counties and all districts in the northern division as reported Saturday night was \$2,838,500. Reports from the tardy districts are expected tonight.

Box Elder Honored.
The record of Box Elder county stands first among the counties of the northern district. Box Elder county doubled its subscription on the last day of the campaign in a huge concerted drive. Saturday morning its total was \$90,000. Reports Saturday night placed it at \$175,000. A mass meeting Saturday in the peach town resulted in the changed report.

As soon as the business incident to closing up the campaign is finished, an organization for the next Liberty loan, which is expected some time in March, will be perfected for the northern district, according to J. B. Lowe, representing the federal reserve bank of the twelfth district at San Francisco. The third loan organization will be technically perfect so that the work may be done in the most efficient manner. The new organization will be distinct from the clearing house association or the banks. It is thought that the work will be more successful with less effort through this plan. When the government is ready to announce another campaign the information alone will be all that will be necessary to start the organization working.

County's Good Work.
There were approximately 3,500 individuals and firms within the limits of Weber county who responded to the loan, as follows:

Ogden and Weber county: Ogden State bank, 932 subscribers, \$263,150; First National bank, 615 subscribers, \$247,150; Pingree National bank, 468 subscribers, \$331,350; Ogden Savings bank, 441 subscribers, \$75,000; Utah National bank, 403 subscribers, \$335,850; Commercial National bank, 311 subscribers, \$140,000; Security State bank, 207 subscribers, \$127,250; total, 3,377 subscribers, \$2,019,950.

J. B. Lowe, representative of the federal reserve bank at San Francisco, will remain in Ogden throughout the week to supervise the checking up of the district.

"You advertised as a chauffeur-maid?"
"Yes, madam."
"What were your duties at your last place?"
"I drove and cleaned the cars single-handed."
"And as maid?"
"I took down my lady at night, and assembled her in the morning, madam."
—Cassell's Journal.

Father had demanded a heart-to-heart talk with his only son.
"You told that you are given to gambling," he said, sternly.
"I admit it," the son acknowledged, "but only for small stakes."
"O, it is long as it is something to eat, I don't mind," the father said.—New York Times.

E. F. MISCH DIES AT
SANITARIUM IN
LOS ANGELES

Word was received here of the death of E. F. Misch, former Ogden druggist, at a sanitarium in Los Angeles. Although he has been suffering of an abscess of the brain since he left Ogden, his death came rather suddenly. The physicians attending him and his many friends thought that he was improving steadily, until a sudden sinking spell caused his death at 2 o'clock this morning.

He formerly operated the drug store at the corner of Twenty-fifth and Washington. The worry and care of establishing the business caused a nervous breakdown and he was forced to dispose of the business and go to a lower altitude. The news of his death comes as a great shock to his host of friends in Ogden. Mrs. W. L. Underwood and Mrs. Richard Vail of Ogden are sisters-in-law.

Mr. Misch is a member of the Masonic order and of the B. P. O. Elks. Funeral arrangements have not been made.

ENRAGED MEN
LASH TRAITOR

Leader of People's Council Stripped and Thashed With a Blacksnake.

PRAYED FOR KAISER

Secret Service Men Had Man Under Surveillance—Citizens Mete Out Punishment.

CINCINNATI, Oct. 29.—Herbert Bigelow, head of the People's council here, and a leading member of the People's council, who was kidnapped in an automobile last night just before he was to have addressed a Socialist meeting, was found near Florence, Ky., this morning.

Bigelow had been taken into a wood, his clothes removed and thrashed with a blacksnake whip by a party of men dressed in "long white robes resembling those described as being worn by the renowned Ku Klux Klan."

Previous to "twelve lashes being applied to Bigelow's back," one of the party raised his hand commanding silence and then read from a paper he held as follows: "In the name of the poor women and children of Belgium this man should be whipped," according to the report.

Bigelow was then turned loose and directed toward Cincinnati. He lost his way, however, and wandered in the woods until he found himself in Florence.

Bigelow was taken into custody by five men as he was entering a hall in the city of Newport, Ky., shortly before 8 o'clock last night. He was scheduled to address a meeting of Socialists. At the time of his apprehension handcuffs were put upon him and he was thrust into a waiting automobile and spirited away.

Officers Find Documents.
Recently federal authorities conducted a raid on Bigelow's office in Cincinnati where documents concerning the activities of the local People's council were seized. Sunday afternoon at his People's club services, Bigelow prayed for "the repose of the soul of Emperor William and the proud men surrounding him."

Mr. Bigelow's own statement, written last night at Florence, Ky., says that previous to his being taken into the woods, he was blindfolded. He also says that oil was poured over his head after the lashes were administered.

He says that owing to the darkness he was unable to give an accurate guess as to how many made up the party and was unable to identify them, but residents along the Lexington pike stated that they noticed a line of twenty-two automobiles pass on the way to Florence, Ky., last night, some of which were crowded and carrying men upon the running boards of the cars.

Mr. Bigelow was Democratic candidate for secretary of state of Ohio in 1902 and was a delegate from Hamilton county in 1912. He was elected by this convention as its president. For the last several years, however, he has been actively associated with the Socialist party.

Bigelow was removed to a hospital in this city shortly after his arrival here from Florence this morning. His friends issued a statement that it is not believed he is in a serious condition.

WM. MATHES PLEADS
HE IS NOT GUILTY

William Mathes, the negro charged with grand larceny, pleaded not guilty this afternoon in Judge Pratt's court. The date for his trial was not set but will be in a few days. The local attorneys have been appointed by the court to defend the man.

Mathes was arrested with Bertha Anderson, also colored, for several house burglaries which he was alleged to be responsible for. Ernest Dillard, an accomplice, pleaded guilty and was sentenced to one to ten years in the state penitentiary.

HEAVY FIGHTING
ON ALLIED LINE

Big Guns Continuously Roaring on the Aisne and in Flanders.

GERMANS DRIVEN BACK

Violent Attack by Crown Prince Forces Beaten Back by French.

PARIS, Oct. 29.—Another effort was made by the Germans last night to capture Chaume wood. The war office reports that they gained a footing in the advanced French positions but that the greater part of the ground was regained in a counter-attack.

Heavy artillery fighting continues on the Aisne front and in Flanders. The announcement follows:

"In Belgium rather violent artillery actions occurred north of Draiebank. 'South of St. Quentin we made an attack which enabled us to bring back a machine gun and prisoners."

"On the Aisne front spirited artillery fighting occurred near Hurtebise and in the sector north of Vaudesson. 'Our detachments penetrated German trenches in the Argonne and on the left bank of the Meuse bringing back ten prisoners. On the right bank of the Meuse the German artillery violently bombarded our positions on the front between Chaume wood and Eszenvaux. An attack followed. The enemy beaten back by our fire, was not able to approach our lines except at a single point north of Caubert wood, where he gained a footing for a distance of about 500 meters in our advanced positions. Our troops counter-attacked immediately and regained the greater part of the occupied ground."

GERMAN INTRIGUE FAILS
LONDON, Oct. 29.—La Metropole, Belgian newspaper published here, says a German attempt to separate the allies has been defeated by Baron de Broqueville, Belgian foreign minister.

According to this newspaper, Germany recently made a peace offer to Belgium.

U. S. TO CONTROL
PACKING PLANTS

All Meat Industries in Country Under Absolute Rule of Government.

TO INSURE FAIR PRICES

Meat Bulletins to Be Issued—All Places to Be Under License.

CHICAGO, Oct. 29.—Official announcement was made today that every packing plant in the country is under control of the government and that after the first of November the control will be absolute, operation of the plants then being under license.

The announcement was coincident with the grand jury drive against high priced milk and was made by Joseph P. Cotton, chief of the meat division of the food division, and Professor Charles McCarthy of the University of Wisconsin, personal representative of Food Administrator Hoover, after weeks of investigation of the Chicago packing plants.

"The government is in full control of the meat packing industries of the country," said President McCarthy today. "It has been for some time but after November 1 when the packers will be operating under a license, the control will be absolute. This insures fair prices to both the public and the farmer-producers."

"To the producers of meat animals it will insure prices that will encourage him to increase production and to the consumer, prices that will assure him that he is not paying excessive profits."

"Our big aim is to assure farmers they will be amply repaid for increasing animal production. We must have more meat animals if we are to win the war and to keep meat prices from ascending to points beyond the public purse."

"Within a short time meat price bulletins will be issued."

DRAFT MEN ARE TO
MEET WEDNESDAY

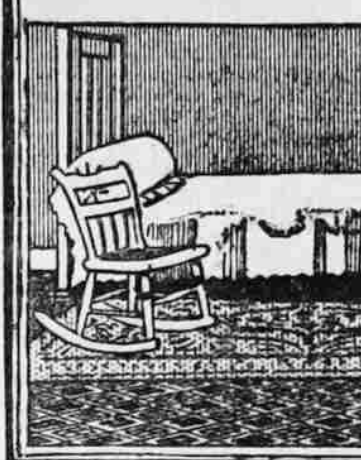

Registrants who will leave November 3 for Camp Lewis will meet this week with the city and county draft boards for final instructions prior to their departure. The county quota of twenty men, ten regulars and ten extras to fill the positions of rejected

CONGOLEUM
Floor Coverings

Attractive, durable, easily laid and easily cleaned—that's Congoleum.

Pretty matting and floral designs for bedrooms—tile and conventional designs for bathroom, pantry and kitchen.

BOYLE FURNITURE CO.

Any one can lay it, as it requires no fastening and won't curl up. Absolutely waterproof and won't crumble at the edges like printed linoleum. Also costs less and looks better.

Congoleum Rug Borders cannot be told from polished oak, when laid next to a rug or carpet—a wonderful effect at an extraordinarily low cost.

HEAVY STORM
VISITS BUTTE

Fifteen Inches of Snow and Mid-winter Blizzard in Montana Towns.

SEVEN BELOW IN HELENA

Cold Wave Warnings Issued to Many Points in the West.

BUTTE, Mont., Oct. 29.—Montana was experiencing today effects of a mid-winter blizzard which, during the last few days brought fifteen inches of snow to Butte. Seven degrees below zero was reported last night in Helena, Billings and Missoula each reported four below.

The weather today was clear in most parts of the state with promises of moderation from the severe cold.

DENVER, Colo., Oct. 29.—All records for cold weather were broken in eastern Colorado today while in the Panhandle section of Texas records were equalled. At Yellowstone National park the thermometer showed six degrees below zero which also is a record, according to the local weather bureau.

At Denver the mercury stood at 2 degrees below zero. The next coldest October weather was in 1873 when the coldest record 1 degree above zero was recorded.

Roswell, N. W., which was the farthest south the cold wave extended, the mercury dropped 50 degrees to 22 degrees above zero in twelve hours.

Cold Wave Warnings.
WASHINGTON, Oct. 29.—The first real cold weather of the season made its appearance today in the Rocky mountain district with a minimum temperature on record at Denver and Pueblo, Colo., and Pocatello, Ida.

Cold wave warnings were issued by the weather bureau for southwest Iowa, eastern Illinois except Chicago, eastern Missouri and Little Rock and the interior of eastern Texas.

Warning of a decided drop in temperature to about freezing or below was given for the Ohio valley, western Tennessee, northern Mississippi and northern Alabama. The cold will over-erped the east gulf states, Tennessee, Georgia and northern Florida and the Atlantic coast districts Tuesday afternoon or night.

loaf 7, or not more than 8 cents at the bakery, and the half loaf 4 cents.

One step to be determined before the baking industry is placed under license and the standard loaf required is whether, at the outset, to license all bakers or just the large bakers operating more than one oven. There are about 30,000 bakeries in the United States, of which 30 per cent produce 70 per cent of the bread. It may be decided, at first, simply to license the big bakers, with the expectation that the small fellows will fall into line. If they do not they will be taken in hand.

This is certain, however. Bread prices are coming down. Bakers are to be forced to cut.
